

PLANETARIUM OUTREACH

Have the planetarium come to you!

Outreach only*

EXPLORING THE NIGHT SKY - EARLY CHILDHOOD

Learn about the night sky with story time, explore constellations and create your own!

THE "DARK" SIDE OF THE MOON - 1ST GRADE

Investigate the light and dark side of the moon, study the moon phases and learn about the apparent movement of stars across the night sky.

THE SOLAR SYSTEM & OUR NIGHT SKY - 3RD GRADE

Blast into our night sky as we explore our solar system and journey beyond to study the stars.

THE NIGHT SKY - 4TH GRADE

Explore the night sky, constellations, and the reasons for day and night.

\$5.50 per student
