

Under the Stars

Thursday, September 26
6pm-10pm
Highland Brewing Event Center

For \$40/person, the fundraiser includes dinner, drinks, live music, a visit inside the museum's portable planetarium, and access to premier live and silent auction items to bid on.

100% of proceeds from this event go directly to AMOS's education programs and exhibits.

What?

AMOS is a homegrown, hands-on regional museum where visitors can learn and experience science and see its application in the local region. As a sponsor you increase access to science for those who could typically not afford the opportunity, expand the museum's reach to rural areas, enhance exhibits, provide innovative programs, and build a regional science center.

Why?

STEAM education and access is critical to our area's success. North Carolina students are falling behind in science and local applicants cannot compete for STEAM jobs in western North Carolina. As a resource for the community, it is imperative that the museum's education offerings help the region bridge achievement gaps and support the upcoming generation in workforce development.

Where?

AMOS is located in downtown Asheville, however, programs can easily go "on the road" with outreach. AMOS is expanding its education programs to cities and rural communities in the western part of the state.

When?

In 2019, AMOS aims to complete 2 exhibits, expand education programs, and serve our area by providing access to fun science education at major community events. Sponsors can share their passion for education and science by lending support during this exciting year and beyond.

How?

Your business and family can choose to support STEAM education in North Carolina by sponsoring AMOS exhibits, education, and events! The following outlines how sponsors can get involved and receive recognition for an investment in science education.

Under the Stars
