

Nature Scavenger Hunts

There are so many neat things to find in nature. Trees, rocks, flowers, salamanders, insects, and so much more are hidden just in your own backyard!

Scavenger hunts are a great way to get outside and take a closer look at nature! We've put together three different scavenger hunts for you to try!

See who can find the most objects in nature!

Play scavenger hunt BINGO, and whoever fills a row first wins!

Create your own scavenger hunt and see if you can find something really cool! Share them with us here at AMOS!

This activity is preparing you for a really fun Citizen Science activity we'll bring to you this week! So get searching!

Terrific Trees!

SCAVENGER HUNT

How many of these things can you find in nature? Go for a hike and check off each one you find.

Never underestimate the power of a tree! They provide habitats (homes) for all sorts of insects and birds. They turn carbon dioxide into oxygen that helps us breathe. They create food for humans and animals such as apples, berries and walnuts. Trees also give us things like lumber, paper, glue, medicine, and much more.
