

Earth Day Challenge

After learning about all the ways you can help the Earth this week, see if you can complete this challenge!

It may be pretty challenging because we are so used to being able to use electricity and gas, and humans don't like to change what they are used to. See if you can answer each of the challenges. Then, see if you can actually do some of those challenges!

Send us a picture or a story about what you complete as part of your Earth Day challenge to edu@ashevillescience.org!
