

CONSTELLATIONS & COMMUNITY

FRIDAY NOVEMBER 14

HIGHLAND BREWING EVENT CENTER

A LETTER FROM AMOS'

EXECUTIVE DIRECTOR

At the Asheville Museum of Science (AMOS) stars reflect an important message, especially after a year of community resilience post-Helene. **While we might exist in different orbits, we all play an integral part of connecting for a bigger picture.**

This fall, we hope you'll join us for **Under the Stars**- our annual gala on November 14th, 2025. Under the Stars is our evening of celebrating the way we connect to serve our STEAM community, reflecting on our past year, and helping shape our mission for the year ahead.

When you sponsor AMOS at Under the Stars, you're becoming a vital part of an ecosystem that helps raise the next generation of problem solvers and question askers. This year at UTS, we're over the moon to celebrate the possibility of expanding the museum's footprint and providing more room for innovative and engaging approaches to hands-on learning.

We hope you'll come learn more on November 14th at Highland Brewing.

2025 SPONSORSHIP LEVELS

PRESENTING SPONSOR

\$15,000+

and exhibit upgrades

COMET SPONSOR

\$1,000+

Recognition on website, social, and event program
Logo in annual report
2 VIP tickets + 2 regular tickets
2 Museum Day Passes

supports classroom
science experiences

2024 PROJECTS

PROJECTS SUPPORTED BY LAST YEAR'S
GENEROUS DONORS

AMOS DURING HELENE

Community support helped AMOS stay open as a resource hub. Through financial support from our donors we were able to run frequent supply drives, offer free admission for WNC families during the school closure, and host HalloSTEAM- a free community night that provided a safe place for families to celebrate Halloween.

FREE STEAM KITS FOR WNC KIDS

Thanks to our sponsors, AMOS distributed 551 STEAM learning kits to students during the school closure. We served 28 schools in 13 counties. Our EDU team also provided heavily discounted field trips to schools and communities impacted by Helene.

OUR CHANGING WORLD EXHIBIT

AMOS began the building stages of our planetary health gallery on September 23rd, 2024 but halted due to the hurricane and loss of fabrication space. Our sponsors helped find resources to help construct *Our Changing World* which opened on April 30th, 2025.
